

## TK1360 - Control Micro Systems CMS5030-C CO2 Laser Marker (2006)

Model: CMS5030-C CO2 Laser Marker

SKU: TK1360

Year: 2006

### Description:

Control Micro Systems CMS5030-C CO2 Laser Marker (2006)

Manufacturer: CMS

Model No: CMS5030-C

DOM: Dec 01, 2006

SN: 06045

Application: Engraving on printed circuit boards. - 30 watt laser CO2

### Features:

SMEMA-spec

Adjustable width through-conveyor board transport accommodating boards up to 15" x 18"

Permanently marking on a wide variety of board materials including

FR4

CEM1

Paper phenolic

Ceramic substrate

Solder mask.  
Low maintenance  
Non-contact marking  
Low consumables  
No Additives  
Computer controlled marking content  
Serialization  
Flat screen human interface

**Mechanical Features:**

Edge-belt conveyor  
Pneumatic board stop  
NEMA 1.2 Power Distribution  
PAT light system status indicator  
SMEMA interface with input/output conveyors for intelligent handling of production flow  
CDRH Class I compliant  
Welded steel base for mechanical/optical stability
