

TK503 - Motan TT 100 Dryer

Model: TT 100 Dryer

SKU:

Year:

Description:

Motan TT 100 Dryer

Brand: Motan

Model: TT 100

Type: Dryer

Capacity: 100lbs

Voltage: 230 V N/PE

Connected Load: 1.5 kW

Weight: 100 kgs

Product details:

Drying of thermoplastic granules and regrind, as part of a drying system.

Colortronic drying hoppers are designed for continuous 24-hour operation.

Colortronic drying hoppers meet the European "CE" requirements.

Rugged, modular construction

Colortronic drying hoppers are constructed of stainless. Material and air flow have been carefully engineered for optimum drying results at high energy efficiency.

The drying hoppers are equipped with scale-free drying heaters. The hopper is insulated into the discharge cone, preventing heat loss while serving as effective protection against accidental contact. The large cleaning opening allows the quick and easy cleaning.
